

RAIDER 16 SPORT/RAIDER II SPORT/TURBO PORTSMOUTH TABLE

MODEL	NAPY	D-PN
RAIDER SPORT ⁽¹⁾	RDR16	91.4
RAIDER II SPORT ⁽²⁾	RDR2	90.0
RAIDER II TURBO ⁽³⁾	RDR2T	89.1

Notes:

- (1) Raider Sport or RDR16 denotes all hulls originally manufactured with carbon fiber main spar and equipped with mainsail and spinnaker.
- (2) Raider II Sport or RDR2 denotes all hulls originally manufactured with aluminum main spar and equipped with mainsail and jib only.
- (3) Raider II Turbo or RDR2T denotes all hulls originally manufactured with aluminum main spar and equipped with mainsail, jib and spinnaker.

With any hull, any change of sails carried aboard not in accordance with the specifications above will require a correction to D-PN as required by the applicable correction tables. For example:
An RDR2T sailor chooses to remove his spinnaker sail for a race. He is entitled to correct his D-PN by increasing it to 90.0 for that race. (RDR2T OEM D-PN 89.1 X 1.011 = Corrected D-PN of 90.0)
